

Gen Phys:

- Get out notebook and pen/pencil
- Open your notebook to the exercises from yesterday.
- Leave all other materials in the cubby in front of your desk.

Got Grit?

1. $358 + 96$

2. $493 + 68$

3. $194 + 347$

4. $516 - 89$

5. $412 - 98$

5. $493 - 48$

- What is x , if:

$$7547 + 1936 = 7545 + x$$

$$x - 2138 = 5381 - 2134$$

$$6714 - x = 6724 - 2386$$

$$2847 + 4276 = x + 4296$$

Now, try these:

1. $358 + 96$

2. $193 + 78$

3. $494 + 114$

4. $426 - 19$

5. $582 - 98$

5. $693 - 28$

- What is x , if:

$$1543 + 1936 = 1545 + x$$

$$x - 2028 = 6271 - 2128$$

$$5216 - x = 5226 - 1922$$

$$6161 + 2264 = x + 2294$$
